

Title.	Distance	Place	OS Map
Langsett Reservoir	2 Miles 3.2 Km	Langsett Reservoir Nr. Stocksbridge	OS 110 Sheffield & Huddersfield

The walk is on one side of Langsett Reservoir, which is situated within a woodland pine area with spectacular views of the lake and surrounding moorlands and forest. It has a nice picnic area.

See website <http://www.peakdistrict.gov.uk/visiting/accessibility/access-peak/langsett> where John Harris has an excellent video as he pushes around Langsett in the beautiful Peak District.

- **Facilities** – Car Park – Toilets – Picnic benches area – Notice Boards – Occasionally the Langsett Visitors Barn is open for craft events.

There is a tarmac car park at the centre, which can be full at the weekends – and outside is a long lay-by which people use.

- **Café** – There is no café at the Langsett Centre Barn – But as you leave the car park turn right and about 50 metres is the Bank View Café serving excellent food and The Wagon & Horses Inn serving home cooking and real ale, with outside seating areas in the garden and grand views overlooking Langsett Reservoir and the Pennine moors - they are both wheelchair friendly.

- **Toilets** – There are toilets and disabled toilets at the centre – and toilets at the Café and Inn.

- **Path** – The wheelchair walk is a 1.5 miles round walk, the paths are a mixture of fine rolled-in crushed gravel / stone and compacted earth all the way round — it is suitable for motorised wheelchairs – there some steep slopes and it says it is suitable for pushchairs – however it may not be manageable for a pusher and manual wheelchairs apart from the top path which has great moorland views and around the centre and picnic area.

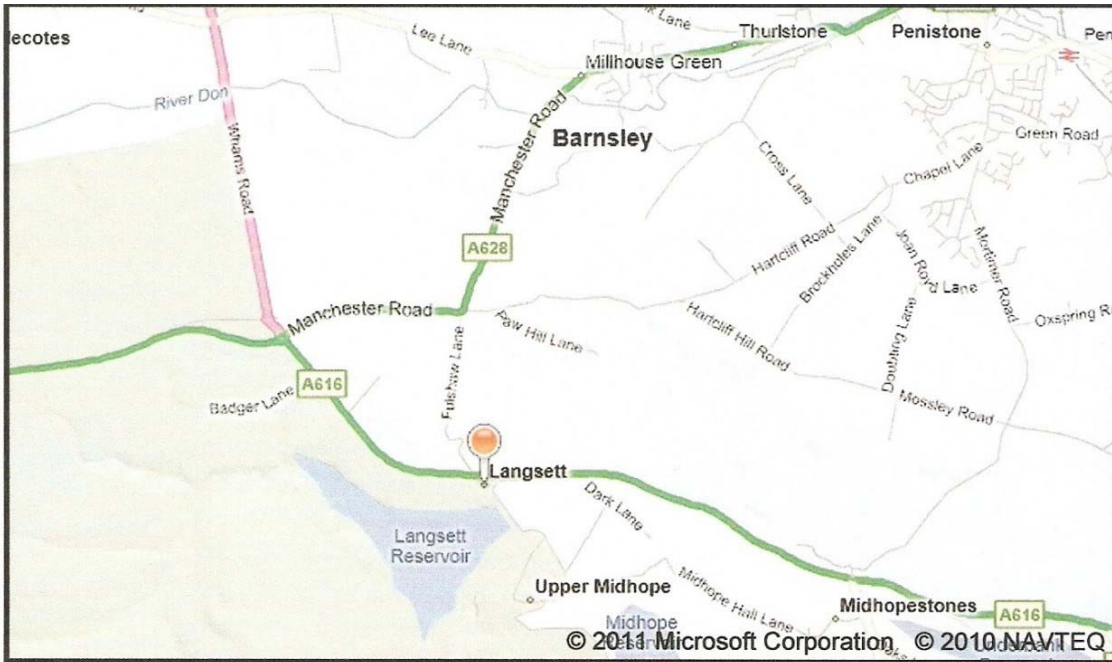

See the Gallery for more photos

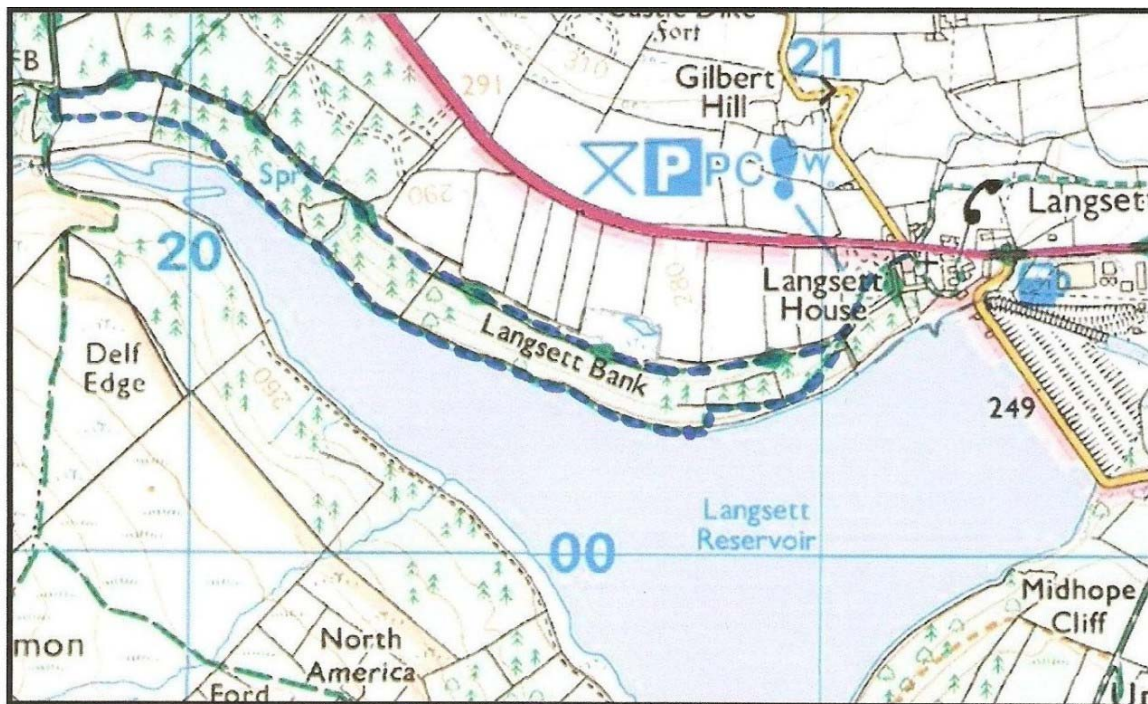

- **Information** – There is some information on the website and sites which describe the history of the reservoir.
