- **Toilets** – There are toilets at the café.
- **Path** - The path from the car park near the Lower Lake is quite flat and is a good surface for wheelchairs and continues around the lake. It is made up of fine rolled-in

crushed stone all the way round — it is suitable for motorised wheelchairs but manual wheelchairs will definitely require a pusher for some slopes [see maps].

You can start the walk at the main café, but this path down to the lake [**marked in red – see map**] is on a sloping crushed stone path which is suitable for a motorised wheelchair, but a manual wheelchair with a pusher will find it is probably too steep.

There is plenty of seating around the park with litter-bins and some dog litter-bins.
